AORTA is a worker-owned cooperative devoted to strengthening movements for social justice and a solidarity economy. We work as consultants and facilitators to expand the capacity of cooperative, collective, and community based projects through education, training, and planning. We base our work on an intersectional approach to liberation because we believe that true change requires uprooting all systems of oppression.

FIGHTING THE SYSTEMS: DESTABILIZING SYSTEMIC OPPRESSION

This workshop will focus on developing shared language and a deeper analysis of how systemic oppression operates so that we can better understand how to transform ourselves and our organizations, workplaces, and communities. Together we will map what it looks like when systems such as white supremacy, patriarchy, classism, homo- and transphobia, and ableism influence and affect our day-to-day interactions, as well as organizational operations and practices. We will leave with a more comprehensive and complicated understanding of these systems, as well as action steps and resources to make concrete changes and impacts.
